ASCHERI & PARTNERS

OUR MISSION

Ascheri & Partners specialises in providing international and domestic tax advice for corporations, with the collaboration of our network of professionals. We focus on supporting professional firms that do not have a department specifically designed for international consultancy, and on working alongside professionals.

Our mission consists of:

- Ensuring the care of business interests, advising clients on often complex corporate issues on tax, finance and commercial fields;
- Providing operational advice to clients and supporting them on specific tasks.

We work in a dynamic team with a network of dedicated specialists, to resolve clients' day-to-day issues as well as handling more complex matters related to asset management, and both national and international affairs.

Our consultants have extensive experience in providing tax advice, strategies and custom solutions: they carry out meticulous work at competitive rates, based on substantial expertise within their field of specialization.

The policy of Ascheri & Partners Ltd complies fully with the European law, to fight against money laundering and illegal activities, and to meet the prerequisites of our banking partners. For this reason, Ascheri & Partners Ltd needs to identify and understand the nature of the assets and financial resources of each potential client. By achieving these targets, Ascheri & Partners Ltd will be able to enter into collaboration with new clients, but only after their professional advisers have provided the necessary information. This thorough procedure allows us to protect our existing clients, to follow legal obligations, and to provide a quality service.

- *Advising our customers in an effective manner*
- *Implementing customised solutions*
- *Making strategic decisions regarding asset protection*
- *Developing business planning to increase production and finance*
- *Improving proficiency and performance*
- *Being a proactive source*

INTERNATIONAL TAX PLANNING

Whether you are an individual in need of information about personal tax affairs, or a company requiring international tax advice, our chartered accountants specialise in creating international tax planning strategies to guarantee your tax affairs are legal, efficient and cost-effective. Each of our clients will receive a customised tax plan to suit their needs and maximise profitability.

CORPORATION TAX

It is essential to understand all the rules surrounding corporate tax, as different countries have different regulations. Calculation of corporate tax is a difficult task that involves making a detailed account of all income spent and generated from a company. Many companies are not set-up in their home countries, or have several branches all over the world. It is important to know under which jurisdiction each of those offices falls under and to whom the Corporate Tax must be paid.

STATUTORY ACCOUNTS

Statutory accounts, also known as annual accounts, provide shareholders with an insight into businesses performance. They are also required by the Companies House and HMRC to keep your business records up to date. We assist businesses to prepare these accounts which are based on financial records at the end of the financial year.

COMPANY INCORPORATION

Ascheri & Partners provides professional company formation services. Whether you are a new business wanting to incorporate locally or interested in setting up an office overseas, we

OUR SERVICES

can support you through your entire business cycle. If you are unsure of where to incorporate your business, our experts can consult you on the most suitable options based on your specific business needs. We will clearly explain the pros and cons of each potential location and help you make an informed decision.

VAT SERVICES

In the UK the VAT rate is at 20% and if miscalculated could result in penalties of up to 100% of the tax which highlights the importance of having your VAT affairs in order. With VAT becoming increasingly complicated, we aim to simplify your business operations by assisting with your VAT profile. Our accounting services include the preparation of the quarterly VAT return, which is transmitted electronically to the competent authorities.

PAYROLL SERVICES

Our payroll Services are managed and provided by our team of certified tax advisors and payroll specialists whom register your company with the appropriate tax authorities and ensure regulatory compliance as well as tailor Payroll solutions specifically to your requirements. By outsourcing your payroll system to one of our payroll managers, we can ensure that your employees are paid the correct amount on time.

BUSINESS BANKING

Ascheri & Partners will assist you in opening a Personal or Corporate bank account. A new company or business opportunity needs qualified and reliable experience by opening accounts locally, internationally, and offshore.
